

**TWUSUPER**  
Hardworking super for people in transport

## Consolidate your super

Get all your super into one account to save on fees.

### Do you have more than one super account?

If you have worked for different employers who have paid super into different funds for you, then you probably have several super accounts.

Multiple accounts mean multiple fees. With just one account you can minimise the fees you pay and maximise your super savings.

### What are the benefits of getting your super together?

As well as minimising the fees you pay, having all your super in the one account helps to simplify your life. With just one super account you will have:

- > less paperwork to deal with
- > a clear investment strategy for all your super savings
- > a clear idea of how much super you are accumulating
- > one contact number and one website address to remember
- > less chance of losing track of your super.

### How to get your super together

To move all your super into your TWUSUPER account, you'll need to track down the details of all your other super accounts.

As well as the name of the other funds, it's helpful to have your member or account number details ready when you complete the rollover paperwork. Look for super statements or contact any previous employers to obtain fund information.
